Credit 101, 102 and Credit 103 are interactive and invite the class to give real world examples of the credit department environment. In each class, NACM Connect provides a textbook for each student to take back to the office and use as a reference guide.

The intention of these courses is to teach students about credit and prepare them for the workplace. These classes also set the stage for continuing education in future seminars and Institute of Credit classes, in which students prepare to earn their professional designations.
