

MEETING TOPIC: FRAUD

A key role of the credit department is to mitigate and prevent losses. That job becomes increasingly difficult when bad actors engage in unscrupulous conduct, such as by submitting fraudulent credit applications or other misleading information to induce your company to ship goods with no intention to pay for them. In this session, you will learn to identify some of the telltale signs of potential fraud and how to engage in extra diligence to save your company from losses. You will also hear about available remedies in the event that you are defrauded.
